Business lively.
Rain Wednesday.
County Court next week.
Next Thursday is the National Anniversary.
Hay in this vicinity will be scarce this season.

Al Graham of Salt Creek is building a new dwelling.

We understand there is one or two new cases of small pox at Eola.

The Dallas District school closes the present quarter, next Wednesday.

The attendance at the Dixie meeting, last Sabbath, was quite large.

Numerous parties have gone to the coast at the mouth of Salmon river.

The Methodist camp-meeting at Ellendale, commenced yesterday.

We noticed Mr. D. M. Guthrie going through town, on Monday with a lot of nice sheep.

Marked improvements are being made in all parts of the county, by way of building, fences, etc.

Rev. J. James has removed his jewelry establishment to the west side of Main street, just south of the brick store.

Our town presented very much the appearance of Goldsmith's Village last Sunday.—Everybody went to camp-meeting.

Judge Myers, J. J. Daly and several other gentlemen of our town were out fishing, the fore part of the week and brought home a fine lot of trout.

Mr. M. Oglesby was severely injured last Tuesday by a horse falling with him unexpectedly. His injuries though severe are not likely to prove serious.

Till Glaze, leader of the band, has been very ill the past week. He is getting better now, and will be able, probably, to take charge of the band next Thursday. His sickness was brain fever.

A fine rain set in yesterday morning and up to the time of going to press was "pattering right lively." This will do an immense amount of good to late sown grain, which, without it would have been very short.

The hand wagon is now ready for use. It is newly painted and pictured, and will probably be used on the coming fourth. The boys have everything ready now to go to any portion of the State, upon short notice.

The late concert of Prof. Rutan, in Corvallis, is spoken of in flattering terms by the Gazette. The Prof. has two classes here, and we understand they are making arrangements to give a concert in the early part of July.

The Ball on the Fourth. Those who enjoy a social dance where matters are conducted as they should be in such cases, can be accommodated by attending the ball at the Court House, in this place, on the coming fourth.

Keep an eye out for the man who don't subscribe for his home paper. Ten to one he will take—yours with him if you give him an opportunity—he will have it. If he is too stingy to buy it he'll not be too good to steal it.

Raticating. Our popular tinware dealer, Mr. T. B. Newman, with his family, has been rusticated along the banks of the sparkling Luckiamute, during the week. In the meantime, business goes on swimmingly at his old stand.

Warning. We have names on our subscription book which have been standing since the REPUBLICAN first started, without any credit being made. Those parties will please take warning and settle, as we must have our books squared up.

Called. Mr. Abrams, of Lincoln, gave us a call last Monday. From him we learn that the small pox at that place is completely checked and no fears need be entertained of its spread. Mr. A. is a Merchant of Lincoln, and reports business flourishing.

Mr. Scott and party returned from the coast last Monday. They were on the beach three days, and enjoyed themselves splendidly. The road is in excellent condition, the weather pleasant, and everything favorable for a good time to those wishing to try it.

The "Retired Parson" will please excuse us for not publishing his correspondence. The charges are well founded and every proposition laid down so palpable that we believe not even the clergy themselves would pretend to deny them. But severe criticism in such cases only arouses an enemy without working a reform.

Mammon is the God of a great portion of the world, and the remainder will occasionally cast a wishful eye over their prayer books when an opportunity offers to feast their eyes upon the glittering metal.

The report which was circulated extensively here, last week, to the effect that the small pox had broken out among the Indians on the coast at the mouth of Salmon river, is wholly unfounded. Mr. J. M. Scott, who has just returned from there, says there are but very few Indians there, and none of them sick.

Last Saturday night some parties at the meeting at Dixie, bent on mischief, took a lot of large frames containing photographs, that were hanging out for samples on the car of W. H. Catterlin. They broke the glass and the frames and carried off the pictures. Mr. Catterlin informs us that he was injured to the amount of about forty dollars.

First among the many sewing machines of the day, is the grover & Baker. Its reputation is so well established before the public that all that is necessary to secure its sale is to inform the public where it can be found. Mr. J. W. Gilbert, of Salem, is the agent, and any one calling on that gentleman at his boat and shoe store will be accommodated.

A young gentleman a short time since went to pay his regular attentions to his sweetheart. While thus engaged, the paternal relative of the young lady entered the parlor, and presenting our hero with a piece of bread and butter, with sugar on it, patted him on the head and said kindly, "There sonny, take that and run home now; it's nearly nine o'clock, and your ma will be anxious about you." Tableau, and exit youth—Strange, but fact.

The Fourth at Dixie. Extensive preparations are being made by the Good Templars of Polk county, for a good time at the Dixie Camp-ground, next Thursday. Mr. Levi Leland is to be the Orator of the Day, and Dr. W. D. Jeffries, of Eola, Reader of the Declaration. Music will be furnished in abundance by the Dallas Brass Band, and singing by the several glee clubs of the county. A good time may be expected by all who see fit to participate, whether Good Templars or not. Good Templars from adjoining counties are invited. Let everybody turn out and show their appreciation of the cause of Temperance, and their constant devotion to the principles of our forefathers. Let the Fourth of July at Dixie, in 1872, be one long to be remembered.

This Means Business

For the finest styles as well as the best quality of gent's ware, call on Murphy & Croasman, Bank building, Salem.

Botter & Wortley have their store well filled with goods of all description, for sale at low rates.

To buy where you can buy cheapest is the motto of all who wish to prosper. With this object in view call on N. & J. D. Lee.

Though a large stock was sold at the camp-meeting, yet it is known that G. B. Stiles is now on hand with a full assortment of groceries.

With a well selected stock and a determination to sell cheap, we see no reason why M. C. Brown should not retain all his old customers, and procure lots of new ones.

Our workers in wood are turning out some splendid work, and they invariably call on Mr. H. P. Shriver to do the painting. He knows how to do it as it should be done.

We were yesterday shown a clash top single-seated buggy, gotten up by W. H. Teal & Co., for Mr. Croasman of Independence, which for service combined with style of finish would be hard to excel. This firm is turning off a large quantity of excellent work this season.

Notice the card of J. James.

The prettiest thing yet.—The new "ad" or Grover & Baker.

Messrs. Brown & Reynolds have opened a new paint shop in the old 944 Fellows building. Look out for their card next week.

Hall's Vegetable Sootless Hair Restorer, the most popular preparation of the age. Sold by all druggists.

Dr. Pierce's Golden Medical Discovery will not raise the dead, but it will benefit and cure the living. For all severe Coughs, Throat and Bronchial diseases it has never been equaled.

CORRESPONDENCE.

Oregon City, June 19, 1872.

ED. REPUBLICAN:

Being a subscriber to your valuable paper and thinking you would like to hear something from Oregon City, I concluded to give you a passing note.

The town presents a lively appearance, as large numbers of men are employed on the Locks, which, by the way are rapidly approaching completion, and bids fair to be a splendid piece of workmanship. The first Luck at the upper end of the works, is being substantially walled up with rock blasted out of the hills, or shipped from up the Clackamas. The wall is twelve feet in thickness with a gradation to five feet at the top, sufficient to withstand the great pressure of water which will flow against it during the winter season.

Two hundred men are employed on the works, and houses and sheds are being erected everywhere along the line of the Canal. Carpenters are in demand at from \$2.75 to \$3.50 per day. Night and day are men at work blasting, for nothing can be done without the use of powder or nitro glycerine, so solid is the rock. It would surprise you to see the rocks flying over the works and around the town. A regular organized band of thieves have been committing depredations and, although we have five or six watchmen, they have not been successful in securing any of them. By the way they did make a haul on one poor fellow a German, who had tarried too long at his "lager," could not cross the ferry to the Locks where he worked. Needing rest he went to a vacant blacksmith shop and fell asleep. While in that blissful state, he was suddenly aroused by these "valiant men of the night," and

roughly requested to go to prison to finish his nap. It is easy to catch a man asleep, but housebreakers not—Next day a politician's oath is administered and our benighted German had \$25.00 swallowed up by the dispensers of justice. Mr. housebreaker is, meantime making ready in some sequestered spot for a raid upon some unsuspecting part of the hamlet. One poor fellow is caught picking a few cherries and is compelled to give bail for good behavior, while another robs a house and escapes. Such is justice. Yours Truly, A. O. Y.

News Summary.

New York, June 24.—Barbers of seventeen hundred shops struck this morning for reduced hours of labor, from 7 A. M. to 8 P. M., with an hour for dinner. Twelve hundred shops acceded to the demands immediately.

Buffalo, June 24.—A strike is imminent among the different trade organizations. Several representatives from New York and Jersey City are here.

New York, June 24.—The Piano makers have resumed work at ten hours. Baker and Steinway's employees get an advance.

New London, June 24.—The steam lighter Wallace exploded her boiler, shattering the entire vessel. Two out of thirteen on board were lost. The engineer and fireman fatally and five others badly scalded.

Boston, June 24.—It is understood that Chamberlain President of the Columbus Convention, officially notified Judge Davis and Joel Parker of their nomination to the Presidency, and that he is to recall the Columbus Convention to meet in New York, in July, for conference.

Boston, June 24.—The Oratorio for today passed off agreeably to a strictly musical portion of the audience. The rest of the audience was worried by thirty-six airs and choruses, and relieved by six popular elements that will hereafter be of great attractions. "Israel" was well rendered by a chorus of twelve hundred from Societies in and around Boston.

President Grant will be present tomorrow. The attractive features of the past week's programme will be performed.

Boston, June 24.—Passengers report that the steamer Bristol, from New York run down and sunk a schooner in the sound. Boats were launched but no survivors found.

Belleville, June 24.—A post mortem examination was held this afternoon on the bodies of three who were killed by the late accident on the Grand Trunk railroad. The number of deaths up to this time is thirty, including a number of lumbermen and telegraph line builders from the Province of Quebec. The Coroner's jury fully exonerates the Company and engineer from all blame, the cause being purely accidental. The engineer was a sober and efficient man and died at his post.

Geneva, June 24.—It is announced that the Tribunal of Arbitration meets tomorrow in stead of on Wednesday, the President of the Board having recalled the absent arbitrators, by telegraph. This earlier meeting confirms the belief that a settlement has been made.

San Francisco, June 25.—The Northern Pacific Transportation Company have no later news from the wreck of the California, but from advices already received they still have strong hopes that she will be got off.

New York, June 25.—Four hundred employees of the Custom House will petition Collector Arthur to-night for the eight hour rule to apply to weighers.

Yesterday a party of strikers in a planing mill on sixty-first street, dislocated the machinery and threatened the men with death if they refused to desist work. The police arrested the disturbers.

The employees in a coach factory in Jersey City have gone to work again.

At a meeting of Tammany last night, Horatio Seymour was chosen Sachem. Preparations were also made for a great 4th of July celebration. James Brooks was chosen orator.

New York, June 25.—A Washington dispatch states that Spanish war vessels have been instructed to seize and sink the American steamers Virginia and Edgar wherever found outside of neutral ports. The Virginia appears by a letter received here from her captain yesterday, was at Puerto Cabala, Venezuela, in the latter part of May. She was very leaky and would be unable to secure the necessary repairs there, and would be obliged to leave for Martinique. Two Spanish war vessels were in port. Their officers were enraged at the refusal of the Venezuelan government to deliver up the Virginia to them, and threatened to cut her out, whereupon the Venezuelans trained the guns of the Fort upon the Spaniards and the latter quitted the place. The Virginia is also out of coal.

Geneva, June 24.—Dispatches received since Saturday have induced the American Agent to request Count Scholopis to summon the Conference immediately. He has accordingly sent telegrams to all members to meet at 2

o'clock P. M. on Tuesday. It is not known whether the indirect claims have been withdrawn. At 8 o'clock all the members who had been abroad arrived here.

It is stated that the Secretary of State, on Sunday, telegraphed Bancroft and Davis a statement of the object of The United States in presenting indirect claims, and the reasons for not accepting a money award; also the reason why they should not be taken as an element of consideration in the gross award. Mr. Davis responded yesterday. It is believed that a majority of the Board will accept our views.

MASONIC LODGE OF OREGON.—The following are the officers elected for the ensuing year at the Twenty Second Annual Communication, held in Salem Monday, June 24th.

T. McF. Patton, G. M.; A. Van Dusen, D. G. M.; J. B. Congie, S. G. W.; J. T. Stamp, J. G. W.; B. F. Brown, Grand Treasurer; R. P. Earhart, Grand Secretary; J. R. Bailey, Chairman of Committee on Educational Fund.

For the very best photographs go to Bradley & Ruland's Galleries without STAIRS, 2nd ASCEND IN THE ELEVATOR, 429 Montgomery street, San Francisco.

SPECIAL NOTICES.

WILLIAM DAVIDSON, REAL ESTATE DEALER, Office, No. 61 Front Street, PORTLAND OREGON.

WADE, BROWN & CO. 14-m3 Salem, June 1, 1872.

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarrhoea, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (not if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhoea or cramps continue repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. It cures Cholera, Summer Complaints, Dyspepsia, Dizziness, Asthma it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to Old Sores, Burns, Scalds, and sprains. For Sick Headache and Toothache don't fail to try it. In short, it is a PAIN KILLER.

Directions accompany each bottle. The Pain Killer is sold by all dealers in Medicines, giving a list of names.

Prices, 25 cents, 50 cents and \$1 per bottle.

A Pitiful Condition.

It is a sad thing to pass through life only half alive. Yet there are thousands whose habitua condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensual pleasure. In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food, every organ is starved, and every function is interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time by administering temporary remedies, but wake the system up by recuperating the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nature and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken the feeble frame of the dyspeptic will begin to feel its long-sought influence. Appetite will be created and with appetite the capacity to digest what it craves. Persevere until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain, flows through the channels of circulation instead of the watery pulchrum with which they have heretofore been imperfectly nourished.

J. W. GILBERT, Agent, 17-m6 Salem, Oregon.

NEW ADVERTISEMENTS.

WADE, BROWN & Co. DEALERS IN HARWARE, FARM MACHINERY, WAGONS, ETC. INCLUDING PITT CHALLENGER, RUSSELL, HARDEN & WHEELER'S THRESHERS, MOUNTED AND DOWN ENDLESS CHAINS, HORSE POWERS, HAINES HEADERS, with extra heavy drapers And many other improvements exclusively OUR OWN.

MARSH'S HARVESTERS, DODGE, Woods, Hubbard, Clipper, Buckeye, Sprague, Excelsior, New York, Esterly, Burt, Eagle, and other

REAPERS and MOWERS.

NEW ADVERTISEMENTS.

Ayer's Hair Vigor, For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. It wanted merely for a

HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS. PRICE \$1.00.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from cures of many of which are truly marvellous. In various cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and diseases, which were aggravated by the scrofulous contamination, until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebled or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be subtly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Impetigo, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Nervous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurotial Diseases are cured by it, though a long time is required for subduing these chronic maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhoea or Whites, Erysipelas, and Venereal Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Constipation or Indigestion of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and listless, Dependent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass., PRACTICAL AND ANALYTICAL CHEMISTS. SOLD BY ALL DRUGGISTS EVERYWHERE.

THE FLORENCE

Will sew everything needed in a family, from the heaviest to the lightest fabric.

IT DOES MORE WORK, MORE KINDS OF WORK, AND BETTER WORK, Than any other machine.

If there is a Florence Sewing Machine within one thousand miles of San Francisco not working well and giving entire satisfaction, I am informed of it, it will be attended to without expense of any kind to the owner.

SAMUEL HILL, Agent, 19 New Montgomery Street, Grand Hotel Building, San Francisco.
